# Our Mission and Vision

## ❖ VISION

The Vision of Tulip Combined School is to see the youth growing up equipped with the necessary skill and characteristics to face the challenges of life after school. Our learners will embody excellence in character, academic standards, personal security and fully developed physically, spiritually, and culturally. Our dream is to see our learners reaching their full potential, achieving their goals, setting new standards, and becoming contributing members in all sectors of the workforce. In order to achieve this we understand that we have to start in early life, working both with learners and their parents, to build lasting values and a healthy vision to grow into all that their Creator designed for them to be.

## ❖ MISSION

Contributing to our school's vision, we provide a holistic and progressive approach to educating our learners and thereby preparing them to lead productive and fulfilling lives thus making a positive contribution to society. This we strive for through:

### ➤ *Discipline in Discipleship*

- *building a God-like character in the children's lives*
- *upholding and instilling of biblical values in our youth*
- *instilling sound Christian values in our youth*

### ➤ *Security in Excellence*

- *providing education of a high standard and continually reinvesting into this*
- *developing and optimally utilising state of the art facilities and methods*
- *employing and further developing high calibre staff*

### ➤ *Empowerment in Development*

- *Empowering and inspiring the leaders of tomorrow*
- *Equipping our young people for life and, in so doing, prepare them to take up a meaningful place in our society*

## ❖ VALUES

- Tulip Combined School provides a learning environment, conducive to academic excellence where the spiritual, moral, intellectual, emotional, physical, cultural, and social needs for each student can be met.
- Enriching and deepening each student's relationship with God through prayer.

## ❖ INTRODUCTION

### BACKGROUND

Tulip Combined School is an independent learning institution registered and accredited with the Gauteng Department of Education (Reg.No.700252031) and Umalusi respectively. We are an English medium, non-denominational Christian School that caters for learners from Grade R to 12.

The school has been in existence since 1994 and is governed by the Board of Directors together with the Senior Management Team. Over the years the school has instilled a culture of discipline and unity amongst learners, teachers, and parents. The school has facilitated the intellectual development, promoted spirituality, and inculcated the appropriate societal norms, values, and beliefs into the minds of our learners, producing valuable self-reliant responsible citizens of South Africa.

### WHY CHOOSE TULIP COMBINED SCHOOL?

- Tulip Combined School guarantees 100% commitment to the educational development of your child.
- Our teachers are well-qualified, enthusiastic, passionate, and extremely experienced. Our dynamic team of educators not only deliver the curriculum but go to every length to ensure that our learners are truly transformed into the best version of themselves and well equipped for the next academic year.
- Discipline, respect, and the culture of positivity receives the highest Priority at Tulip Combined School.
- We follow the South African National CAPS curriculum; however, our education and learning are delivered using innovative methods through technology.
- Our name speaks for itself; we are synonymous for prestige and victory.
- Tulip Combined School is not just an institution, it is an experience!

## ❖ OUR EDUCATIONAL MODEL

- Foundation phase Grade R to 3
- Intermediate phase Grade 4 to 6
- Senior phase Grade 7 -9
- FET phase Grade 10 to 12

### INNOVATIVE EDUCATIONAL PROGRAMME

At Tulip Combined School we have devised an educational programme where creativity is encouraged, essential 21st century skills are developed through the utilization of the latest technologies, and school community is paramount. Although we have based our education programme on innovative, future-focused methods of facilitating learning, the difference between our school and other schools is that we use these progressive methods alongside proven, traditional academic ones. The aim of our innovative educational programme is to provide an exciting daily learning experience which will ensure that all our learners love attending school.

### FUTURE FOCUSED EDUCATION STEAM EDUCATION STEAM = SCIENCE, TECHNOLOGY, ENGINEERING, ARTS & MATHEMATICS

We prepare our learners with the 21st century knowledge and skill set needed to impact their surroundings from a local, national, and global perspective. STEAM is found in everything, in every discipline, and in every product, we use in life! STEAM helps learners make science, technology, engineering, arts, and mathematics connections in every discipline that is studied. We help learners know that STEAM is not exclusive to the subjects of science, technology, engineering, and mathematics. We aim to implement an innovative and creative, student-centred learning environment where learners and teachers utilize the latest technology in the acquisition of knowledge and skills to succeed in a competitive global economy. We require that each student make a determined effort to take every opportunity toward their own fulfilment as an individual and as a member of the community via the established structures and support systems provided by the School. STEAM Education leads to innovation, new ways of thinking, new technologies, new music and much more. We believe that by providing learners digital access and infusing technology across and within the curriculum that our learners will become responsible digital participants in our society. We use technology to:

- CREATE ACTIVE LEARNERS – We use technology that allows all learners to become actively engaged in class.

- ENHANCE GROUP PARTICIPATION – Through the use of a variety of technological tools teachers can engage an entire class so that all learners participate simultaneously.
- ENGAGE LEARNERS AND ENHANCE FEEDBACK– By intentionally choosing captivating programs student interaction with key content is increased and feedback to learners is enhanced. STEAM educational approach to learning provides access points for guiding student inquiry, dialogue, and critical thinking. The end results are learners who take thoughtful risks, engage in experiential learning, persist in problem-solving, embrace collaboration, and work through the creative process. These are the innovators, educators, leaders, and learners of the 21st century!

- Online classes – for Grade R – 12, require internet and appropriate devices at home.
- Physical Science and Life Science – for Grade 10-12 learners in subject stream - White lab coat.

❖ **GRADE 11 AND 12 EXTRA CLASSES**

Our extremely vigorous extra classes have undoubtedly proven to be successful and show in our pass rate. Unlike most schools, do not have a set number of classes that are spread over the academic year, this is deliberately done to accommodate the learners needs as and when the need arises. We believe that in working hand in hand with the learners and their capabilities. Classes take place after school, over the weekends and during school holidays. In order for our programme to be successful and obtain the best results, these classes are compulsory.

❖ **ACHIEVEMENTS**

We are extremely proud to say that we have an unbreakable record in the D12 district and have achieved a **100% pass rate** from 2014 - 2020. In 2021 our intense online lesson proved to work very well as we had achieved the most bachelor passes than any of the other years. Our school and educators have received numerous prestigious awards from the Department of Education over the years.

Our learners do not just meet the minimum requirements to pass, we have had many learners achieve multiple distinctions and receive achievement awards from the Department of Education.

❖ **SCHOOL FACILITIES**

- Computer labs
- Science lab
- Digital projectors
- Smart boards
- Audio/sound equipment.
